

TRADITIONAL™ EMERGENCY STATION

TRADITIONAL EMERGENCY STATION

Selecting the right emergency equipment can be such a complicated process. But we feel it shouldn't be. With our Traditional Emergency Stations, we combined every necessary component together into one cohesive unit to make equipment selection simple and effortless.

SHOWER FEATURES

- Lifesaver Shower Head delivers a powerful, even spray performance.
- Highly visible, intuitive pull-rod activation.
- 20 GPM flow control.
- Durable, plastic construction.

EYEWASH FEATURES

- Aerated sprays deliver soothing relief.
- Push-handle activation allows for easy operation.
- Stay open ball valve provides hands free operation once activated.
- Flip-top dust caps protect spray heads from dirt and debris.
- Corrosion resistant, incredibly durable construction.
- 3.18 GPM at 30 PSI.

CERTIFICATIONS

- ANSI/ISEA Z358.1 Certified.
